GEORGE CHIKHLADZE

Senior .Net Developer

About me

Backend Developer with more than 10 years of experience who worked with highly loaded real estate services, a voice assistants, a social network and mobile operator.

I have a lot of solid knowledge and experience in the field:
- How to work in cross-functional teams with lots of people
- How to develop successful products in an enterprise
- How to develop a product with an active audience to 3,000,000 users.

Looking for a new challenges and relocation. Man of the World.
